INTRODUCING THE MERIT™ SERIES HEALTHY CLIMATE™ BOX MEDIA AIR CLEANERS.

SELF-CONTAINED BOX FILTER ROUNDS OUT OUR EXTENSIVE MEDIA AIR CLEANER LINE, MAKING LENNOX YOUR NUMBER ONE SOURCE FOR AIR FILTRATION SYSTEMS.

How It Works

Lennox' Healthy Climate™ Box Media Air Cleaner (BMAC) is designed to capture smaller particles that slip past most conventional filters. It keeps the clean air circulating throughout your home, so your HVAC equipment performs better and you breathe easier.

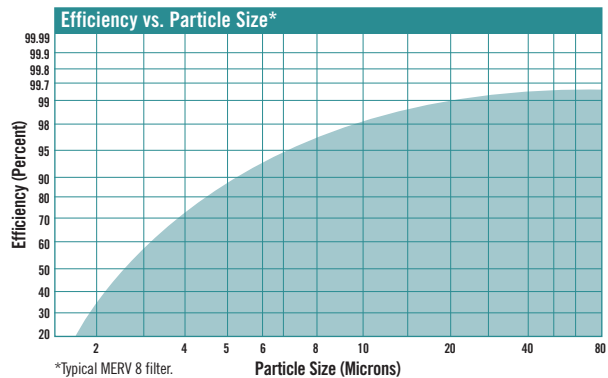

Conventional filters capture pollutants mainly by trapping larger particles on the surface of the filter. The particle-covered surface can restrict airflow, which reduces the efficiency of your heating and cooling system.

The Healthy Climate Box Media Air Cleaner draws particles deep inside the filter, allowing maximum airflow and filtration efficiency. In fact, it traps particles as small as 0.3 micron. That means cleaner air, lower utility bills and longer filter life.
